SUMMARY

Aspiring Software Developer with strong foundation in Python, Java, and JavaScript, focused on building responsive web applications and scalable backend systems. Skilled in REST API development, database design , authentication, and deployment basics. Passionate about solving real-world problems through clean code, teamwork, and continuous learning.

TECHNICAL SKILLS

Python	React	Git
Java	Bootstrap	Github
JavaScript	Django	

PROJECTS

Heart Disease Prediction Web Application

Tech Skills – Python, Machine Learning, Pandas, NumPy, Scikit-learn, Flask/Django, HTML/CSS

- Developed a web-based system to predict heart disease risk using patient health inputs.
- Trained ML model and integrated it into a web interface for fast predictions.
- Improved usability by validating inputs and showing clear risk output results.
- Prepared dataset preprocessing pipeline for consistent accuracy.

Django E-Commerce Website

Tech Skills – Python, Django, HTML, CSS, Bootstrap, SQLite/MySQL, GitHub

- Built an e-commerce website with product listing, search, and category filtering.
- Implemented user login/signup, cart management, and order placement system.
- Added admin features to add/update products and manage orders.
- Designed database models for products, users, cart, and orders.

EDUCATION

Bachelor of Technology in Artificial Intelligence And Data Science **July 2024 - Mar 2028**

St.Xaviers Catholic College Of Engineering,Chunkankadai

- **CGPA:**8.50

CHILD JESUS SCHOOL **July 2022 - Mar 2024**

- 12th std completed by 75% of marks
- 10th std completed by 85% of marks

ADDITIONAL INFORMATION

- **Languages:** English, Tamil, German.
- **Certifications:** Full Stack Development, Machine Learning.
